## Course Outline

### Module 1: Overview

A simple introduction module.

#### After completing this module, students will be able to:

- Understand your course, classroom, classmates, facility and instructor.

### Module 2: SharePoint Introduction

In this module, we are going to answer the all important questions of What and Why should we be using SharePoint.

We are also going to look at several of the new and exciting features of SharePoint 2013!

#### Lessons

- What is SharePoint?
- Why SharePoint?
- What's New in SharePoint 2013
- Driving End User Adoption

#### After completing this module, students will be able to:

- Describe the site topology components of SharePoint
- Describe the new features and capabilities of SharePoint 2013 as compared to older versions
- Describe what business problems SharePoint can address

### Module 3: Collaboration Experience

In this module we take a look at the site creation process, common features of the basic team site, advanced features of a Team Site and the new features of SharePoint 2013.

We will also take a look at the new features introduced in SharePoint 2013 from a collaboration and UI perspective.
